OR

- Participate in a conversation with committee members as part of the committee agenda during the Annual Meeting

OR

- Participate in a number of planned discussions with subcommittees, working groups, or other small groups organized under the auspices of the committee

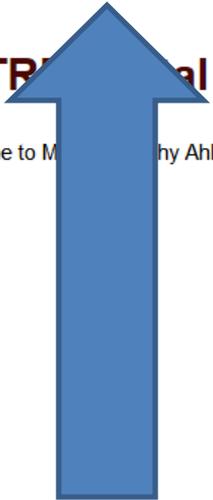

Environmental Sensing and Reliable Communication from Sensors to Decisions: a Bottom-up and Top-to-Bottom Approach, Filling the Gap for Transportation Climate Resilience

Presentations will address technologies and frameworks that currently support the construction of systems resilience to help manage the challenges posed by the impacts of climate change in a multidisciplinary perspective where information availability, time-scale and other capabilities for a reliable communication from the sensors to the decision makers are a critical feature for daily operations and future sustainable planning.
