For almost three decades, the ITS JPO has fostered pioneering research and development in technology and evaluation of each generation of ITS. These efforts have helped to save lives, improve access and mobility, and increase economic productivity.

The ITS JPO is now looking ahead to the next 5 years of transportation innovation. The ITS JPO Strategic Plan 2020–2025 describes the ITS JPO’s vision, mission, and strategies that will help the U.S. Department of Transportation achieve its key technology research and development priorities and ensure that our nation has the safest, most efficient and modern transportation system in the world.
ITS JPO Strategic Plan 2020-2025

Research Areas

The ITS JPO advances transportation innovation through six research areas and four technology transfer programs, which together work to accelerate deployment.

ITS JPO STRATEGIC RESEARCH AREAS

- Emerging and Enabling Technologies
- Data Access and Exchanges
- Cybersecurity for ITS
- Automation
- Complete Trip

Accelerating ITS Deployment through:

- ITS Evaluation
- ITS Professional Capacity Building
- ITS Architecture and Standards
- ITS Communications

Vision

The ITS JPO’s vision is to accelerate the use of ITS to transform the way society moves.

Mission

The ITS JPO’s mission is to lead collaborative and innovative research, development, and implementation of ITS to improve the safety and mobility of people and goods.

Share Your Feedback!

The ITS JPO will release the new strategic plan in the next few weeks. There will be a comment period after to gather stakeholder feedback. Don’t miss your chance to help shape the future of transportation.
